One way to use this would be to record the location that you conducted an interview. Another example would be to use this if your company has job sites that change and you do not want to list every site in your Locations list.

Interview Location

- 238 Blacksberry Road, Knoxville, TN, United States
- 238 U.S. 70, Lenoir City, TN, United States
- 238 South Peters Road, Knoxville, TN, United States
- 238 U.S. 19, Bryson City, NC, United States
- 238 East Emerald Avenue, Knoxville, TN, United States

powered by Google

Selecting the Currency will allow only numerical values to be entered. Also you will be able to choose from a selection of Currencies to use.

The screenshot shows a dialog box titled "Edit Fields" with a close button (X) in the top right corner. The dialog contains the following fields:

- Field Name:** A text box containing "Incident Cost".
- Description:** A text box containing "The total cost associated with the incident".
- Data Type:** A dropdown menu with "Currency" selected.
- Control Type:** A dropdown menu with "USD-\$" selected. The dropdown is open, showing a list of options: "Select", "CAD-C\$", "EUR-€", "GBP-£", "JPY-¥", and "USD-\$".

At the bottom of the dialog, there are two buttons: "A" (highlighted in blue) and "Cancel".
